

Curriculum vitae – Evgeni Bolotin

E-mail: seb85il@gmail.com

Personal info

Name: Evgeni Bolotin

Year of birth: 1985

Address: HaSeifan 2/3, Afula, 18780

Address in Technion: “Canada” dorms

Country of birth: Belarus (White Russia)

Education

2013 – present: Graduate student at the Faculty of Medicine, Technion – Israel Institute of Technology. Research area: Microbial evolutionary genomics. Advisor: Ruth Hershberg.

2008-2013: B. Sc. in Biotechnology and Food Engineering, Technion. GPA: 95.8.

Research Experience

2013 – present: Computational analysis of metagenomic data to probe environmental changes in gene expression

2012: Participation in iGEM competition (international synthetic biology competition) as a part of first Israeli iGEM team. Wet lab experience during iGEM project: PCR amplification and primers’ design, transformation of bacterial cells, cloning.

Linguistic skills

Russian: Very good level of knowledge

Hebrew: Very good level of knowledge

English: Good level of knowledge

Research interests

- Systems biology
- Bioinformatics, *in silico* modeling of biological systems
